

KENZOIL BRAKE FLUID DOT 4

GRADES AVAILABLE – KENZOIL BRAKE FLUID DOT 4

APPLICATION

Kenzoil Brake Fluid DOT 4 is designed for use in brake system of automotive vehicles operating in heavy duty conditions. The higher boiling point of this product. Recommended for use in hydraulic brake and clutch applications in automobiles, motorcycles, light trucks.

DESCRIPTION

Kenzoil Brake Fluid DOT 4 is heavy duty hydraulic brake fluid which ensures long service life of the brake fluid and components of brake mechanism. It also lubricates the moving parts of the brake system very effectively. Kenzoil Brake Fluids is a high quality brake fluid blended from glycol esters, polyglycols and high performance additives. Specially formulated to contain oxidation and corrosion inhibitors to enhance its chemical stability.

PERFORMANCE BENEFITS

Kenzoil Brake Fluid DOT 4

- Excellent Corrosion protection.
- High Boiling Point.
- Superior performance in terms of oxidation stability.
- Recommended for all anti-lock braking systems , hydraulic drum and disc braking systems and hydraulic clutches requiring DOT-4 fluids.

SAE GRADE	DOT 4
Appearance	Transparent
Equilibrium Reflex Boiling Point, °C Min.	240
pH Value	8.5 – 11.
Flash point, °C	120+

Packaging Options :- kenzoil is offered in 0.250, 0.500, 1 , 5, 20 & 210 Liters.

HEALTH & SAFETY :- These oils are unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of industrial and personal hygiene are maintained.
